TECA Headquarters, Nashville, Tennessee | May 15, 2019

CFC is pleased to offer complimentary CFC Compass 4.0 training session in conjunction with the Tennessee Electric Cooperative Association.

(6 CPE Credits/Finance)

9:00 a.m. – 4:00 p.m.

In early 2016, CFC released CFC Compass 4.0, a financial forecasting software package featuring all-new functionality to streamline the process. The latest version has been redeveloped in Microsoft Excel 2013 using Visual Basic for Applications. Preloaded with 10 years of financial data for your system, the latest version means finance professionals can spend less time entering data and more time analyzing it. In this hands-on training, CFC Compass 4.0 developers will demonstrate the new software and its features.

Participants will walk away with:

- The CFC Compass 4.0 model
- An initial financial forecast for their cooperative
- An increased understanding of the CFC Compass software
- An enhanced awareness of advanced functions in Excel 2013

Requirements:

Participants must bring a laptop with access to their USB port, Microsoft Excel 2013, Windows 7 or higher (updated to highest service pack available) and .Net Framework Version 4.5.2 or higher.

Reports Attendees Should Bring to the Training:

Form 7 (12/31/2018), Budget, Capital Budget, Recent Load Forecast and Recent Itemized Long-Term Debt for all lenders except for CFC/NCSC/Farmer Mac (which is preloaded).
